

**PARNELL**  
**DISTRICT SCHOOL**

29 October 2019

Dear Parents

At Parnell, we choose to follow a 'blended learning' approach to learning. This means students will continue to use pencil and paper for learning where this is the best tool, and a digital device for other learning, especially tasks which require students to collaborate and share their learning. We encourage every student to bring their own laptop to school to assist and enhance learning.

Every class in Year 4-8 use Microsoft tools, especially Teams and Onenote to record and share learning. **Microsoft provides free to every child, up to 5 licences of Office 365.**

While there are some school devices available to students, wherever possible we strongly urge parents to provide their child with their own device.

Attached with this letter are fliers for recommended devices from the following suppliers:

- Harvey Norman Devices
- Noel Leeming

The prices quoted are education only prices. If you wish to purchase outside of these options, please be guided by these specifications; ipads and small tablets are **not suitable** as a learning tool at school.

Recommended specifications:

- 2.5GHz or higher
- 11.6" screen
- Pen enabled touch screen (preferred)
- 8 hrs battery life
- 4GB RAM (minimum)
- 128GB SSD (minimum 64)
- Intel HD graphics with HDMI output
- Windows 10

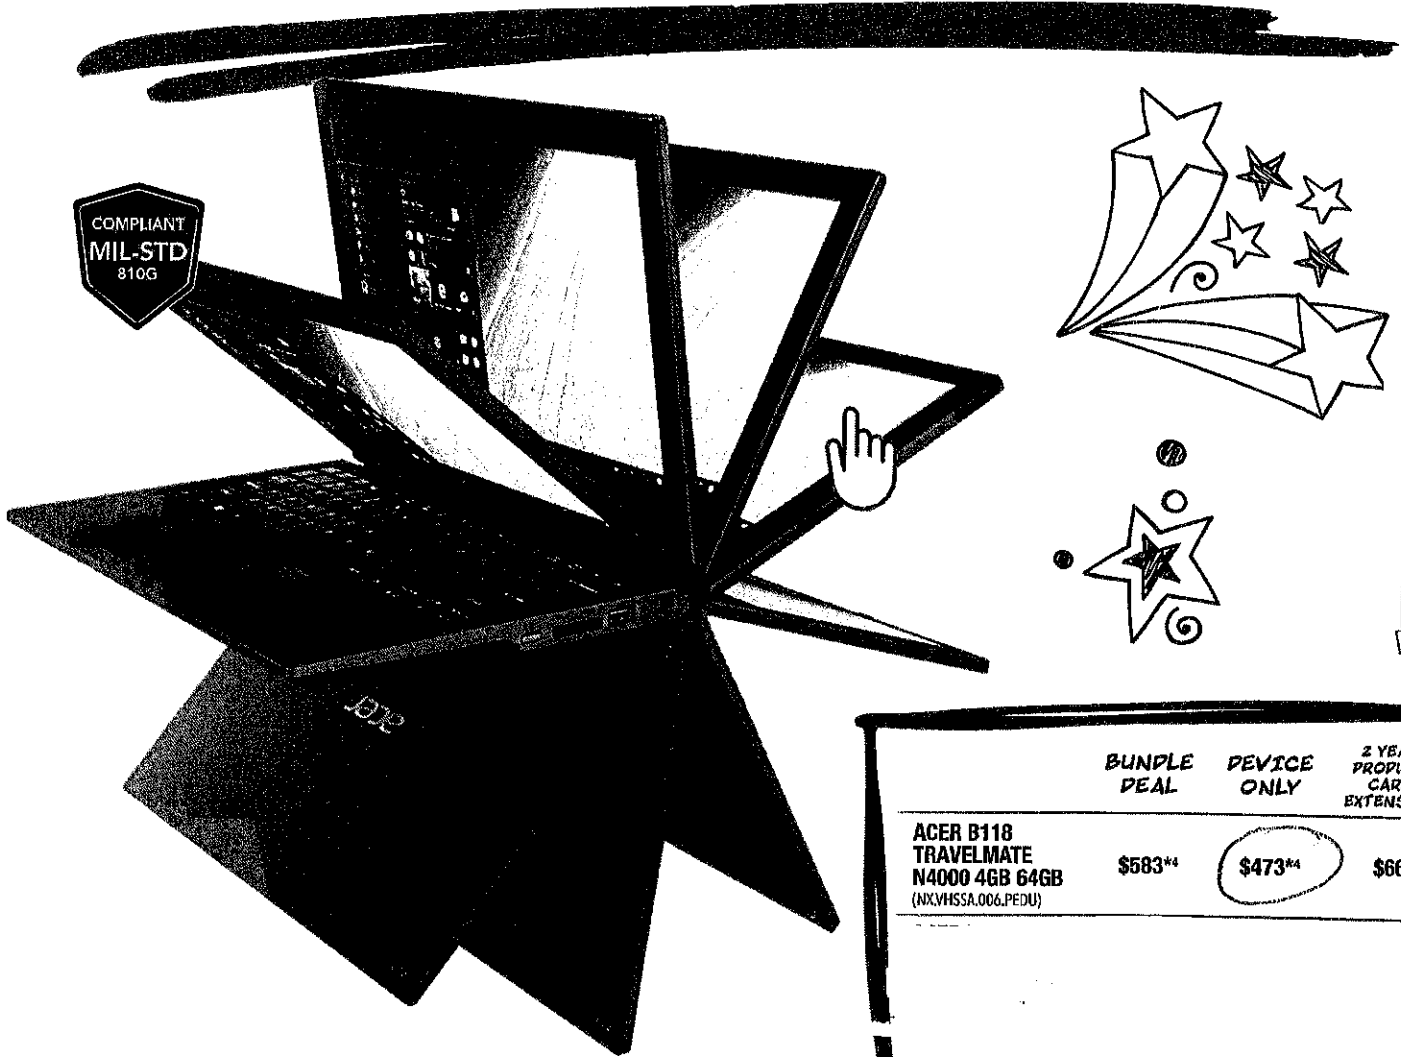

If you have any questions, please feel free to contact [wendyf@parnell.school.nz](mailto:wendyf@parnell.school.nz)

Kind regards

Wendy Franklin-Smith
